

Designing Employment Support for People with Caring Responsibilities

**June 9th 2015, 10am – 3pm,
Roths Hall, Kingdom Shopping Centre, Glenrothes, Fife, KY7 5NX.**

Opportunities Fife invites you to a **unique workshop**. This facilitated workshop will help inform the development of **Employment Support Strategy for People with Caring Responsibilities**. It is vital that we engage with the wide range of people, especially those people with caring responsibilities themselves, involved in this area.

Are you

- ✓ **A Carer?**
- ✓ **An Employer?**
- ✓ **A Service Provider?**
- ✓ **A Commissioner of services?**
- ✓ **Someone who helps to establish policy and practice for employment support services?**

We would like all of you to engage with this unique workshop and to make your valuable contributions!

Book your place at the workshop and help us identify key barriers which prevent or hinder people with caring responsibilities to work. Together we hope to identify services and ways of working that could really help carers to engage (or re-engage) with the workplace or to sustain their work role.

Hear real stories from carers in the area which will inspire you. Their stories will help us all understand better the challenges that people with caring responsibilities face when they want to work.

We would value your time and your contribution to this important workshop being held during **Carer's Week 2015**.

If you are a person with caring responsibilities please don't worry if you are only able to attend for part of the day - we will share the results of the workshop afterwards to make sure that everyone can have their say and make their contribution.

We look forward to welcoming you on the day!
