

Drive Down Your Business Transport Costs – Go Green!

How can low carbon transport help businesses reach environmental goals and even reduce transport costs?

The Levenmouth Community Energy Project & Green Business Fife invite you to attend this FREE event to learn more about a new scheme that offers Hydrogen/Electric dual fuel vehicles to businesses on lease.

Why attend?

- Register your interest in leasing hydrogen/electric vehicles for your business; a scheme already in high demand.
- Test drive a range of low carbon vehicles.
- Discover the real benefits journey planning can bring to your business.
- Find out how car clubs are improving communities' access to sustainable transport across the UK.
- Gain valuable advice on how the Energy Savings Trust can support your business.

Where: Fife Renewables Innovation Centre, Ajax Way, Methil, Fife, KY8 3RS.

When: Thursday 15th October, 10am-2pm
