

Training for Trainers

Making Groupwork More Effective & Developing Facilitation Skills

The Bay Hotel Kinghorn

Tuesday 26th May, Wednesday 27th May and Thursday 28th May 2015

An exciting new opportunity has become available in Fife to train new trainers to deliver the 'Making Groupwork More Effective & Developing Facilitation Skills' course. Health Promotion Fife will be running Training for Trainers course on the above dates. The aim is to increase the current pool of Fife trainers to meet the demand for this training both through the Health Improvement Training Programme and through building capacity in your own workplace.

The Training for Trainers requires attendance at the 3 training days as detailed above, as well as a follow on half day six months later. We expect new trainers to commit to deliver at least one course each year through the Health Improvement Training Programme and one for your own workplace within six months of the training. This training will provide an excellent opportunity for personal development and may also complement your organisation's health improvement remit. We will require agreement from your line manager.

Those who complete the training for trainers course successfully, will join an existing team of Fife trainers who will offer support if required. An information sheet is included detailing the content of this course.

If you are interested in becoming a trainer for this course please complete the application form and return to us, at the below address, by **Friday 30th April**. Successful candidates will be notified by **Friday 7th May**.

A copy of Health Promotion Fife's training contract is included which provides additional information.

Yours sincerely

Gwyn Wilson
